CALL FOR PAPER

Computational Intelligence

Latest Developments in Computational Intelligence
Business Process Intelligence
Smart City Technologies
Computational Chemistry and Biology
Multimedia Processing Techniques

Blockchain for Internet of Things

Enterprise asset management with IoT and blockchain
Facilities management with IoT and blockchain
System engineering with IoT and blockchain
IoT platform based on blockchain

Blockchain Fundamentals

Alternative proof of work algorithms
Cyberattacks on blockchains
Economic impact on cyberattacks
Security and trust on permissioned blockchains
Smart contracts

Blockchain for Banking and Finance

Trade finance with blockchain
Digital identity management with blockchain
Cross-border payments with blockchain

Blockchain for Supply Chain

Fraud and error reduction with blockchain
Inventory management with blockchain
Courier cost reduction with blockchain
Consumer and partner trust management with blockchain
Supply chain issue detection with blockchain

The other topics of interest for submission have been uploaded in our conference website:
<http://www.biotc.net/>

English is the official language of the conference. We welcome paper submissions
